

ATC-03 Fiber Cleaver

Non-Pushing Cleaver

Features:

- High reliability
- Good cleaving performance
- 60,000 times cleave per blade
- High stability and precision

Applications:

1. FTTx construction
2. Optical network construction
3. LAN, WAN, and Metro networks
4. CATV networks

Specifications:

Fiber Type	single fiber
Fiber Diameter	160-900um/2-3mm Patchcord/Drop Cable
Bare Fiber Diameter	125um
Cleave Angle Capability	typically $<0.5^\circ$ (single core)
Cleave Length	5~20mm
Blade Lifetime	60,000 times fiber cleaves (1250 times*16 positions*3 blade heights)
Dimension	120W*95D*45H (mm)
Weight	320g
